

YUVASHRI J

Business Analyst

yuvashriyeyaraman@gmail.com | +91-7200736901 | Chennai, India | [LinkedIn](#)

PROFESSIONAL SUMMARY

Business Analyst with hands-on experience in SQL, Excel, Power BI, dashboards, and KPIs. Skilled in data cleaning, visualization, and dashboard reporting across healthcare, retail, and media projects. Proficient at transforming raw datasets into actionable insights to drive decision-making and business growth. Seeking to contribute analytical expertise in a data-driven organization.

SKILLS

Python | SQL | Excel | Power BI | Jira | Google Analytics | Data Visualization | WordPress | SEO Audit |

PROJECTS

Healthcare Analytics

Key Skills: SQL, Window Functions, Data Analysis, Reporting, Power BI

- Analyzed 27,458+ healthcare records including patients, doctors, appointments, diagnoses, and treatments using advanced SQL queries, improving data accessibility for healthcare decision-making.
- Generated key analytics reports identifying top-performing doctors, contributing to a **15% improvement in patient care**.
- Developed interactive dashboards to track doctor performance and appointments, boosting reports efficiency by 20%.

Netflix Data Analysis

Key Skills: Power BI, Excel, Data Cleaning, Business Intelligence

- Optimized and structured 20K+ records** across customer demographics, subscription details using Excel and Power BI and resolved 1,500+ missing values and standardized rating and date fields for accurate reporting.
- Established Power BI dashboard with KPIs on content, engagement, and subscriptions. Reduced reporting time by 35%.
- Consolidated top 10 most-watched titles** and high-performing genres per region, leading to strategic content recommendations that could improve user retention in underperforming markets by 15–20%.

Data-Driven Insights for Digital Marketing Campaigns

Key Skills: Digital Marketing Analytics, Excel/SQL, Power BI, Marketing KPIs.

- Analyzed digital marketing campaign data to measure performance and ROI. **Ensured 99% data accuracy** for KPI tracking.
- Built interactive Power BI dashboards for 10+ metrics**, cutting **reporting time by 40%**.
- Innovated actionable insights for optimizing targeting, ad spend, and campaign strategy.
- Identified **15+ key trends** from marketing data, driving a projected **20% ROI increase**.

PROFESSIONAL EXPERIENCE

Data Analytics Intern – CubenSolutions Jan 2024 – Apr 2024 | Coimbatore

Retail Sales Analytics

Key Skills: Excel, SQL, Power BI, Data Visualization, Business Intelligence

- Standardized 20K+ retail records in Excel**, improving data integrity and reducing reporting errors.
- Implemented** 9 relational tables and authored 10+ advanced SQL queries (including joins, aggregations, and CTEs) to interrogate \$1.2M+ in sales data across 8 stores and 30+ personnel, revealing high-performing products and identifying inventory risks.
- Designed** a comprehensive Power BI dashboard comprising 10+ analytical visuals (KPIs, maps, slicers), empowering senior management to track total revenue, store-level performance, and evolving customer trends with enhanced precision.
